

Pfizer Zero Cost Prescription Drug List

This list highlights the Pfizer prescription drugs that are covered at 100 percent when dispensed through a pharmacy under Pfizer-sponsored prescription drug coverage for colleagues and retirees. To ensure 100 percent coverage, remember to ask your physician to write the prescription as “dispense as written” to ensure there is no substitution with a non-Pfizer medication and fill your prescription at a participating in-network pharmacy. **Note:** Pfizer medications that are covered under your medical plan coverage are not covered by the Pfizer Zero Cost Prescription Drug List.

This list is subject to change as new medications are added and some are removed. If you have a question about coverage for a specific Pfizer medication, please contact your prescription drug administrator.

Alzheimer’s Disease

Aricept

Anticoagulants

Eliquis

Anti-Convulsants

Celontin

Cerebyx

Dilantin
